Life-Model Position for Drawing and Sculpture

Posted: 7 April, 2020

Life Model for an extended time period single pose, availability. Initially, short drawing poses progressing to multiple 3 or 4-hour each session meetings with an ongoing single pose for developing a new sculpture project. For a new sculpture, the time period easily extends to a year period of 3 or 4-hour session meetings,

potentially more required time up to a 2-year extended period. A potentially shorter extended period of sessions to rework prior sculpture projects.
